Subject: RE: Draft 2017 PPMR Update
Attachments: PPMR Update LanguageAMM.doc

Chris – Here is my proposed language revisions to your proposed text. The establishment of an OU through the PCD is done through the PPMR. So this revision establishes OU10 and it is not solely a USEPA decision. They would need to concur with the PPMR revisions and thus OU 10 is established. I tried to make that the gist of my changes. Hope others can improve upon it. I took the first cut at it.

One other thing, Table 2-1 is eight pages and so the header should be page x of 8.

Subject: Draft 2017 PPMR Update

Hi Everyone – Please review the attached draft update to the Program Plan Modification Report and provide your comments by December 1, 2017. The final version is due by December 22, 2017.

The updates to this document include the following:

- Language was added to document the plan for Area 40. This language was extracted from a letter sent by AR to EPA. Please edit as necessary to document the plan for management of Area 40.
- The schedule for Area 40 was added to Table 5
- The schedules we discussed during the September 2017 technical meeting have been incorporated into Table 5.
- I anticipate the FCS LUC will be finalized before this document is finalized on December 22, 2017, so I have updated the status column for that site in Table 2.

Thanks, Chris
